Tech4All 11.0 will be held at
St. Joseph's Villa in Richmond, Virginia,
a historic venue that offers the perfect
environment to connect, collaborate,
and drive meaningful change.

EVENT PROFILE

An engaging evening. Tech4All 11.0 is an interactive networking event designed to spark ideas, share solutions, and build relationships that advance our community's mission through technology.

Who you'll meet. Connect with nonprofit executives, educators, technology professionals, students, mentors, and corporate partners who are passionate about creating opportunities and strengthening communities.

What's on the agenda. Experience inspiring intern spotlights, panel discussions, and partner showcases focused on real-world impact. Learn how technology and talent are solving today's challenges and shaping a stronger tomorrow.

Food, drinks & networking. Enjoy drinks and heavy appetizers while making meaningful connections in a relaxed, welcoming atmosphere.

Why it matters. Your support helps expand access to internships, mentorship, and technology resources—creating pathways to careers and capacity for nonprofits.

11
Years of Impact

IT4CAUSES is a nonprofit that provides affordable technology solutions and IT support to help nonprofits work smarter and achieve their missions.

Trusted by nonprofits across Virginia.

This year's event celebrates **11 years** of internship and workforce development, highlighting how mentorship, experiential learning, and community partnerships prepare students for meaningful careers in nonprofit technology.

Over **100 interns** have participated in the program during our **11 years** of service. In the past year alone, every graduating intern secured a **full-time, full-pay position** at or before graduation—demonstrating the lasting impact of investing in future technology leaders.

Your sponsorship helps expand internship opportunities, strengthen workforce development, support educational partnerships, and create lasting community impact while connecting your organization with nonprofit, education, and technology leaders across the region.

Technology Experiences

Introducing the IT4Causes Interactive Game

Through gamification, attendees and invitees experience how technology drives real community impact.

IT4Causes is developing an interactive educational game that allows players to experience "A Day in the Life of an IT4Causes Intern."

Inspired by exploration and simulation games, players complete real nonprofit technology tasks while learning about volunteer opportunities, workforce development, cybersecurity, web development, digital marketing, and community outreach.
